

REGISTER OF INTERESTS

In September 2014, all Governors returned the requisite form asking them to declare any business and/or financial interests that they might have.

No interests were registered from any of the Governors.

In addition to this, an item "Declaration of "Interests" appeared on Agendas for each meeting of the Governing Body as well as for its Committees. This required Governors to declare any item on each particular agenda in which they might have either a business and/or financial interest they might have.

No interest was registered by any Governor in any of the meetings mentioned above.

The Governing Body does not have any Associate members.
